SUGGESTED SPECIFICATION:

Insulated flexible ducting shall be Type FM by Peppertree Air Solutions Inc. The core is constructed of an acoustically transparent spunbond nylon; spirally wound and mechanically locked to an exterior galvanized steel helix. Wrapped in Owens Corning GREENGUARD Children & Schools Certified FIBERGLAS® insulation; and sleeved with a reinforced metallized vapor barrier. This product shall be UL 181 Listed as Class 1 Air Duct with a Flame Spread and Smoke Developed Rating not over 25/50.

This product also offers a high recycled content; low emissions of volatile organic compounds (VOCs); reduced building energy demand; enhanced moisture control; and minimized noise transfer through building assemblies.
